

HEBA ELGAWISH
URBAN PLANNER - CITY OF ALEXANDRIA, VIRGINIA

In my current position as an Urban Planner with the City of Alexandria, I have had the opportunity to work within an interdepartmental team on the development of the Old Town North Small Area Plan. My work has involved researching and compiling data on existing demographics and land use patterns and translating this technical information into illustrative maps and graphics to be presented to city staff, advisory committees and the public. I have also been leading the effort to develop an Urban Design Guidelines manual to ensure that new development follows best practices in architecture and urban design, and contributes to the overall vitality of the Old Town North community. Furthermore, I have been assisting with writing reports and policy recommendations for components of the small area plan including land use, transportation, environmental, housing, and economic development.

Illustrative Map - Open Space

LEGEND

- Existing Parks and Open Space
- Proposed Public Open Space
- Proposed Green Roofs
- Proposed Public Open Space on the Power Plant Site
- Proposed Linear Trail Park
- Proposed improvement to existing rail/trail corridor
- Existing Connections/Views to River
- Potential New Connections/Views to River

Note: The buildings, open spaces, and roof gardens depicted on this drawing are for illustrative purposes. The final design and configuration of buildings, open spaces, and roof gardens will be developed as part of the development review process.
